Objective: Experienced Senior Fullstack Developer with over 6 years of professional experience specializing in **Node.js** and **React**. Proven track record of building scalable, high-performance web applications. Adept at collaborating with cross-functional teams, ensuring optimal speed and security, and following best practices in software development. Seeking to contribute my expertise to a dynamic, fast-growing team like SalesNash.

Technical Skills:

Languages: JavaScript (ES6+), TypeScript, Dart

Frameworks: Node.js, React, Next.js, NestJS, Flutter

Databases: SQL, NoSQL, DynamoDB

APIs: RESTful, GraphQL

Version Control: Git, GitHub

Architectures: Microservices, SOLID principles, MVC, MVVM

Others: Web Security, Data Protection, Debugging & Troubleshooting, DevOps, Clean Architecture, Scalable Applications

Professional Experience:

Fullstack Developer | Must Company | Seoul, South Korea | February 2024 - Present |

- Deputy lead developer of the **MSquare Marketplace backend**, focusing on optimal speed, scalability, and clean code architecture.
- Led the **MustMate TimeTracker MVP** development using **Node.js**, **TypeScript**, and **AWS**, ensuring high performance and maintainability.
- Integrated backend and frontend development efforts to enhance the user experience in **React** and ensure seamless feature releases.
- Successfully optimized APIs to support over **20,000 DAU** with minimal downtime.

Fullstack Developer | Shelta | Abuja, Nigeria | December 2023 - March |

- Led the **migration of Shelta 2.0**, improving platform stability, security, and user experience through optimization and code refactoring.
- Developed a **facility management system** that integrated with various third-party APIs, ensuring operational efficiency and data protection.

Software Developer | CuriosityXploring | Calabar, Nigeria | December 2018 - January 2024 |

- Architected and deployed the **Raeven Marketplace** using **React** and **Node.js**, enabling the platform to scale for thousands of users.
- Developed and optimized **#xplorercoin** on the **Solana Blockchain**, ensuring smooth integration with various third-party systems.
- Managed a team to build mobile apps using **React**, ensuring high performance and intuitive user experience across devices.

Product Manager/Lead Developer | FZX Media Consulting | December 2021 - January 2024 |

- Designed and led the development of **FZX Smart Transit**, a solution that enabled grants distribution to MSEs, ensuring scalability and security.
- Led **DevOps initiatives**, focusing on performance optimization and system efficiency, reducing server load times by **30%**.

Software Developer/ Head of R&D | Yokunbo | NYC, USA | March 2022 - January 2023 |

- Led the development of the **MPO Marketplace**, delivering the MVP ahead of schedule.
- Aligned priorities across teams and stakeholders, ensuring impactful initiatives.
- Implemented user feedback for consistent product improvements.

Software Developer/Instructor | Grasper AI | Amakom, Onitsha Nigeria | | August 2020 - September 2021 |

- Delivered comprehensive programming instruction, boosting student interest and participation.
- Developed a range of software systems, including school management websites and e-commerce platforms.

Education:

MBA – Cybersecurity and Product Management (Agile & Lean)

Nexford University, Washington DC, USA | Oct 2023

B.Sc in Computer Science

University of Calabar, Nigeria | Oct 2018
